FULL-STACK DEVELOPER

Full-Stack Web Developer with a strong passion for creating responsive, user-friendly web applications. Proficient in TypeScript, React, Node.js, and Next.js, committed to building high-quality, affordable websites for businesses and individuals. I can create responsive, user-friendly websites that meet your unique needs and exceed your expectations. Whether you need a simple landing page or a complex e-commerce platform, I am dedicated to delivering top-notch results

---

SKILLS

Proficient: JavaScript, Typescript, Node.js, Next.js, React
PostgreSQL, API, prisma, express.js

Moderate: MongoDB , deployment pipline, Tailwindcss

EXPERIENCE

As a freelance web developer, I have worked with clients in both UAE and Egypt
UAE:
- E-commerce platforms with admin dashboards
- Transaction Tracker applications
- Custom business websites

Egypt:
- E-commerce solutions
- Business dashboards
- Portfolio and company sites

SOME LEARNING PROJECTS

Full-stack
developed many apps like:
- **Implemented a Reddit clone application with features like user authentication, post creation, and comment functionality using Next.js, Tailwindcss, and Prisma. Breadit**
- **Case Shop App: A phone case shop**
- **Developed and deployed a quiz app using Next.js, allowing users to test their knowledge and receive instant feedback.**

Front end
Successfully designed and implemented three different template designs

Back end
- Built a scalable and secure online storefront using technologies such as PostgreSQL, Express, and Node.js.

- Developed and deployed an Image Processing API using Node.js, Express, and TypeScript, enabling users to perform various image processing operations efficiently.
